Legiste Ndabashinze

Software Developer Intern

Profile

As an enthusiastic developer experienced in Java and PHP, I am eager to contribute to my team's success through my hard work, attention to detail, and excellent organizational skills. I am highly motivated to learn, grow, and excel in a professional environment, and I am confident that my passion for development will allow me to make valuable contributions to any project.

Experience

July 2022 - December 2022

SA Migration International

Web Developer Intern

Within a small team of interns, we built a chatbot that has been highly effective in providing benefits for both the business and its customers. Its 24/7 availability has increased efficiency and saved businesses time and money, while its ability to handle multiple requests at once ensures that customers receive prompt and accurate responses to their inquiries.

2022 - ∞

Personal Project

Football Management System

The system is designed to assist football teams and organizations in managing their daily operations, including player and staff management, match or tournament scheduling, team selection and much more.

- Technologies used on server side: Java, Spring boot, Maven, XMAPP, PhpMyAdmin.
- Technologies used on client side: Java, Gradle, Retrofit2, Android studio, XML.
